<u>FISCAL IMPACT - Local Government</u>	FY 2002 (10 Mo.)	FY 2003	FY 2004

### FISCAL IMPACT - Small Business

### DESCRIPTION

This proposal would revise the definition of a local board and provisions concerning a local board of health's filing for a petition to commit persons with active tuberculosis or persons who are potential transmitters by adding provisions concerning emergency temporary commitment. If a person with active tuberculosis or who would be a potential transmitter conducts himself or herself in a manner which exposes others to the immediate danger of infection, the board can file an ex parte petition with a circuit court for emergency temporary commitment. After the petition has been filed, the circuit court would be required to hear the matter within 96 hours. The local board would have the authority to detain the person named in the petition pending the circuit court's decision on the petition. Currently, a non-emergency petition filed with the circuit court would be heard in 5 days or no later than 15 days after the non-emergency petition has been filed. If the ex parte petition is granted, the person named in the petition would be committed to the Missouri Rehabilitation Center until a full hearing is held.

DESCRIPTION (continued)

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
